To Whom It May Concern:

I have had the privilege of knowing and working with Mr. William Keith Bookwalter from 1981 to 1984. He was the principal at the International School of San Pedro Sula in Honduras, Central America. I was a kindergarten teacher. His management style of helping teachers reflect on areas of strength and areas for growth in our teaching created a positive atmosphere of caring support which allowed us to refine our skills and improve our instructional competency without the criticism that damages collegial relationships and stifles progress. His focus is positive and empowering. He will make an excellent "math interventionist". He is very knowledgeable in the area of math and knows how to work with educators to develop their highest potential. He will be an asset to any administrative team dedicated to improving education for children.

If you have any questions, I can be reached on my cell phone (928)551-1094.

Sincerely,
