July 5, 2013

To whom it may concern,

Keith Bookwalter worked at the Fundación Liceo Inglés in Pereira, Colombia from August 2011 to June 2013 as the elementary and preschool principal.

As soon as he joined us, he united his staff by promoting teamwork and collaboration. Because of his commitment to effective supervision, he helped teachers improve their skills and methodology. He supported students in emotional, behavioral and academic situations. He brought the dap Program and trained our teachers, as well as teachers from other SACS accredited schools. This program has contributed to our students' logical and mathematical thinking, and will enable them to develop their math abilities more easily.

Keith is a caring, hard-working, and dedicated person. He was able to form positive relationships with all the members of our school community. His leadership in the elementary and preschool sections of our school helped our children's progress, advanced our school improvement efforts, and contributed positively to our institution.

Sincerely,

DIANE ZAUSCHER
