Gentlemen
MARYMOUNT SCHOOL
ATT: Mr. Keith Bookwalter
City

Dear Mr. Bookwalter:

We, the parents of the children of the Third Grade that you direct, want to express through these short lines all our gratitude for the love you have given to our children, as well as for the beautiful and selfless work you have been doing with them. You have made them feel the greatness and importance of study and research and have shown them the application of everything they learn. It has given them the opportunity to feel that they are members of a community in which they are collaborators and responsible for achieving goals. You Mr. Bookwalter have taught them to be proud of themselves.

All of the above fills us with deep emotion and hope, because we feel that at least a small portion of the children of our country are beginning to have a different approach to life and the role they play and will play later in favor of the whole society. We dream that in the future others will follow your example, and that your methodology will be extended to many levels of teaching.

Receive a humble voice of encouragement that comes from our hearts to reach and push the limits of your goodness, your strength, and your courage. Thank you, Mr. Bookwalter, for such a beautiful lesson. Trust and do not falter because the seed has been sown in the souls of these children.

We say goodbye to you with the same nostalgia and fond memory with which our children do.

With deep respect and appreciation,

Parents of the Third Green Group
